

## THE NEURON FLASH

MARCH 2018

## INSIDE THIS ISSUE:

**EMPLOYEE  
PROFILE** 2**NOTES FROM  
AT** 2**EMPLOYEE  
PET PICTURES** 3**UPCOMING  
EVENTS &  
TRAININGS** 4**STAFF SHOUT  
OUTS** 4**POINT CLICK CARE**

Training sessions are coming to an end, and we will soon be going live with the full program. We have already begun the transition into Point Click Care by using the program for patient Admission Assessments. Other aspects of the trainings, like Orders and Progress Notes, will begin Monday April 2nd.

Although you might not be scheduled, we encourage staff to practice at home through the training portal (*npbhtrain.username*). Familiarity with the program will speed up your documentation when we go live. Please take the time to practice, practice, practice! Whether working or at home, Lida is available for questions through text, email, or phone anytime assistance is needed.

ANNI staff as well as Beacon staff have access to Point Click Care. The RN's and Unit clerks are able to contact doctors through the patient communications messaging system. It is a secure conversation module that was set up for patient confidentiality. The message will be sent as a "text" that is HIPPA compliant. You can use this feature through any desktop or laptop computer and are not obligated to use your personal cell phone.

**We have put so much time and effort into this transition, and we thank all staff for their patience and willingness to learn.**

**NURSING CORNER:****CHART REVIEW OVER COFFEE**

Submitted by: Regina M. Butler, MSN RN

Director of Patient Care Services

I want to thank everyone who made NBH's first chart review a success!

Every group was different but all were fun and educational. Quality health care is based on accurate and complete clinical documentation. One of the best ways to improve clinical documentation is through routine medical record audits. Medical audits provide an efficient and better delivery of care; specifically targeting and evaluating the consistency and validity of the medical record. Patient Centered Care offers transparency incorporating all disciplines to reach the same goal; the best possible outcomes for the patient.

**Danielle Bouchard**Position: Social  
Worker

From: Alabama

Family: One brother

Favorites: Loves  
traveling, Spanish  
soap opera's, and  
Greys Anatomy.

Sign: Leo/Cancer

**NOTES FROM AT**

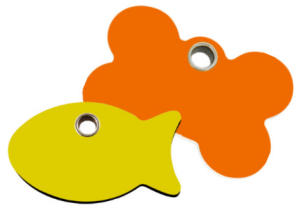

Just a quick reminder that headphones are still available for patients who you feel might need it. The response, when used, is overwhelming! We see a drastic decrease in negative behaviors as patients use them. Remember that the headphones can be customized to fit what musical taste our patients like, so when you offer the headphones to a patient, please ask, "What kind of music would you like?" or "What kind of music would help you to relax?"

Kaj in AT is your contact person with regards to the headphones, however if not available, Krista in AT can also assist.

## EMPLOYEE PETS

The employee's of Newport Bay Hospital have sent in photos of their pets for all of us to enjoy! If you would like to see your pet in our next newsletter, please text or email a photo to anyone in HR.

**PERFECT ATTENDANCE**

Qualifications for Recognition and a Prize include:

- \* Zero Call Outs!
- \* Zero Tardy!
- \* Zero Shifts Left Early!
- \* A doctors note for every sick call!

Each employee will be evaluated quarterly, and those that qualify will be rewarded!

**TRAINING, TRAINING, AND MORE TRAINING!**

2018 has become the year of education here at Newport Bay Hospital! Things are constantly changing for the better and we want our staff to stay up to date on all of it. Some training sessions are survey driven, others come from staff requests and needs, and lately there have been a lot of training sessions on our new electronic medical record system, PCC. We understand it may seem like information overload so it's important to remember we are doing these to help staff development and make NBH a better place.

If you have any questions or would like to suggest a training topic please let HR know. And keep in mind many of our in-services provide free CEUs for all our RNs & LVNs. We are in the process of getting a provider number for CNA CEUs and we will notify staff once that happens.
